Summer School in Cologne
Canonical Metrics on Kähler Manifolds

Maria in der Aue, Cologne, September 13-17, 2010

■ Main Speakers and Working Group Mentors

Paul Gauduchon *(Ecole Polytechnique, Palaiseau)*:
  Introduction to extremal Kähler metrics

Duong Phong *(Columbia University)*:
  Canonical metrics, stability, and non-linear partial differential equations

■ Programme

Lecture series in the morning and intense working groups in the afternoon.

■ Participants

Postdocs and advanced graduate students working in geometry.

■ Application

The deadline for applications is July 20, 2010. Participants will be informed about the application results in the first week of August 2010.

> `http://www.mi.uni-koeln.de/~gmarines/school10/main.htm`

Please apply using the online application form only.
The organizers will cover the local expenses.

■ Organizers

George Marinescu (Köln)
Mihaela Pilca (Köln)
Uwe Semmelmann (Köln)

■ Sponsors

Graduiertenkolleg "Globale Strukturen in Geometrie und Analysis"
Mathematisches Institut, Universität zu Köln
Deutsche Forschungsgemeinschaft
