

The Institute MATHGEOM  
of the Ecole Polytechnique Fédérale de Lausanne (EPFL)  
invites applications for a

one-year full-time postdoctoral position,  
with a negotiable starting date of May 1, 2016.

In addition to research, duties include teaching  
within the framework of the Mathematics Section of EPFL.

Candidates must have completed their PhD within the last four years  
and have shown promise of excellence in research.

Preference will be given to candidates working in algebra (group theory or representation theory),  
geometry (geometric analysis; differential or metric geometry), or analysis (partial differential  
equations and spectral theory).

Applications, including curriculum vitae, publication list, research plan,  
statement of teaching experience, and three references,  
must be submitted electronically by 4 April 2016,

to Pierrette Paulou-Vaucher (pierrette.paulou@epfl.ch)

Applications may be submitted in French or English.

For further information concerning the institute can be found at  
<http://mathgeom.epfl.ch/>
