

PhD position in Harmonic Analysis, TU Clausthal

We are inviting applications for a 3-year PhD position (employee status, with the option of extension by 2 years), in the Research Group **Harmonic Analysis** at the Department of Mathematics, Clausthal University of Technology.

The focus of our current research is in the analysis on symmetric spaces, Dunkl operators and multivariable special functions, and their applications in probability and mathematical physics. For further information see also

<http://www.math.tu-clausthal.de/Abteilungen/Analysis/>

You should have a Diploma or Master Degree in Mathematics with a strong background in analysis. Since the position includes a limited amount of teaching, German language skills are required.

The position will be available from October 1, 2010.

For enquiries, please contact:

Prof. Margit Rösler
Institut für Mathematik
Tu Clausthal
D-38678 Clausthal-Zellerfeld, Germany

e-mail: rosler@math.tu-clausthal.de

phone: +49-5323-72-2409

Please submit your application in electronic form (including CV, cover letter describing your qualification and motivation, copies of certificates and the name of at least one scientist willing to provide a reference) to

rosler@math.tu-clausthal.de

Deadline for applications: September 5, 2010.
