

HYPATIA PRÄSENTIERT:

MEET THE PROFS

Schon immer gefragt, was deine
Profs eigentlich so machen?
Wie kamen sie zur Forschung
und welche Herausforderungen sind
ihnen dabei begegnet?

DONNERSTAG 27. NOVEMBER
16:30 – 18:30, MI HÖRSAAL

TAMING UNPREDICTABLE AI

mit Prof. Aleksandar Bojchevski

Artificial Intelligence is showing up everywhere, including high-stakes domains where mistakes can be disastrous. The problem? These models can be unpredictable and easy to trick. So how can we trust them? First, we'll show just how easily AI models can be fooled. Then, we'll explore techniques that cleverly use randomness to wrap unreliable black-box models in strong mathematical guarantees.
