

Summer School in Cologne Hamiltonian Systems and Celestial Mechanics

University of Cologne, July 29th - August 2nd, 2013

■ Main Speakers and Working Group Mentors

Jacques Féjoz (Université Paris-Dauphine)

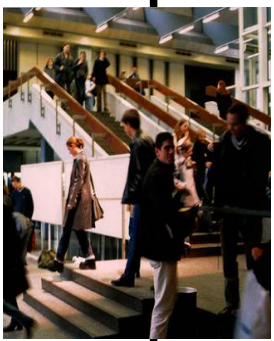

Rafael Ortega (Universidad de Granada)

Felix Schlenk (Université de Neuchâtel)

■ Participants

Postdocs and advanced graduate students working in dynamical systems, symplectic geometry or celestial mechanics.

■ Organizers

Hansjörg Geiges and Markus Kunze (University of Cologne)

■ Application, Information

The deadline for applications is 17th May 2013. Participants will be informed about their admission until 31st May 2013. Some financial support will be available, please indicate your needs when applying. For more information and an application form, please visit the summer school homepage at:

<http://www.mi.uni-koeln.de/summerschool2013/SummerSchool.html>

■ Sponsors

Graduiertenkolleg "Globale Strukturen in Geometrie und Analysis"
SFB-TR 12

ESF Programme "Contact and Symplectic Topology" CAST

■ Local Organization, Administration

Regina Deeg, rdeeg@math.uni-koeln.de

Neola Jenkins, njenkins@math.uni-koeln.de
